

# Wisconsin Landowners For Traditional White-tail Deer Hunting

Established 12/18/09

Our collective landowner goals are to restore and sustain a properly managed whitetail deer herd and restore the family tradition of hunting.

We intend to cooperatively monitor and manage deer populations utilizing a mixture of the following techniques to achieve our goals.

- Support and hunt a traditional 9 day gun season.
- Support measures to deal with the increase in predation and the effect on the deer herd.
- Support of continued CWD testing.
- Deny access to private lands for sharp-shooting purposes.
- Support the elimination of "earn-a-buck".
- Limit doe harvest when land owner deems necessary.
- Limit participation in antler-less only seasons.
- Educate and encourage participation in youth and mentor hunts.

In the long-term as we continue to monitor the localized deer populations we may consider the following to help achieve our goals.

- Minimize overall hunting pressure by reducing participation in some or all seasons.
- Limit overall access to private hunting lands.
- Discontinue purchasing Whitetail deer hunting license and refrain from hunting Whitetails for a period of one year.

**Practicing one or more of these techniques is strictly voluntary.** If you support the goals stated above and would like your lands to be listed as part of this effort. Please provide the contact information listed below.

Name: \_\_\_\_\_  
Address: \_\_\_\_\_  
County: \_\_\_\_\_ Township: \_\_\_\_\_  
Phone: \_\_\_\_\_ Email \_\_\_\_\_  
Signature: \_\_\_\_\_  
Land: Owned: \_\_\_\_\_ Leased: \_\_\_\_\_ # of Acres: \_\_\_\_\_

If you would like your contact information kept confidential check here: \_\_\_\_\_

I would like to help co-ordinate the effort to advance land owner sign up in my area: \_\_\_\_\_

**Please scan and email or mail to the address below as soon as possible. If you have questions regarding this effort please contact us.**
